Therefore, we are testing a new process for certification with LEED v4.1 O+M and new methodologies for rating performance. These methodologies will be refined during and after the beta as more projects participate and share their experiences and building data. This document is a comprehensive guide to the LEED v4.1 O+M beta program.

LEED v4.1 OPERATIONS AND MAINTENANCE

In LEED v4, Fundamental Cx now requires the commissioning agent (CxA) to perform and complete a third-party design review and create a "Current Facilities Requirements and Operations and Maintenance Plan" (CFR and O&M). The design review, usually occurring prior to mid-construction document phase, ensures clarity and completeness of the Owner's Project Requirements (OPR), and verifies that all issues discussed in the OPR are addressed in the Basis of Design (BOD).

LEED v4 Commissioning: More Requirements for Finer-Tuned ...

A building repair and maintenance form is used by building maintenance technicians to properly document all detected issues during weekly, monthly, quarterly, semi-annual, or ad-hoc checks. Easily record building exterior and interior, electrical equipment, plumbing, roof, and other site issues with this checklist.

Building Maintenance Checklist: Free Download | SafetyCulture

This document is a template for creating an Operations & Maintenance Manual for a given investment or project. The final document should be delivered in an electronically searchable format. The Operations & Maintenance Manual should stand on its own with all elements explained and acronyms spelled out for reader/reviewers, including reviewers outside CMS who may not be familiar with CMS projects and investments.
