The goal of any contest-preparation regimen should be to manifest an improved physique every week by making small, painless, and highly strategic tweaks to your diet, training, and supplements so that your peak is timed perfectly for contest day. Often the first four weeks of contest prep are the most difficult from a mental standpoint.

The Complete Guide to Preparing for a Bodybuilding Competition

Natural bodybuilders are drug-tested and are banned from the sport if caught using illegal substances. Appropriate preparation for a natural bodybuilding contest generally involves years of strength training followed by a "contest prep" in which the athlete focuses on dramatically reducing body fat to enhance muscular appearance.

Natural Bodybuilding Competition Preparation and Recovery ...

That's Bodybuilding! Competition diet, weight training, and cardio are the most important pieces of your competition preparation. Your workouts should be tailored for growth, size and shape development. Since dieting will help refine your physique, make sure you prioritize your weak points during workouts.

A Guide For Beginner's Contest Prep! | Bodybuilding.com

Abstract. The popularity of natural bodybuilding is increasing; however, evidence-based recommendations for it are lacking. This paper reviewed the scientific literature relevant to competition preparation on nutrition and supplementation, resulting in the following recommendations. Caloric intake should be set at a level that results in bodyweight losses of approximately 0.5 to 1%/wk to maximize muscle retention.

Evidence-based recommendations for natural bodybuilding ...

The anabolic effect of resistance training can mitigate muscle loss during contest preparation. In reviewing relevant literature, we recommend a periodized approach be utilized. Block and undulating models show promise. Muscle groups should be trained 2 times weekly or more, although high volume training may benefit from higher frequencies to keep volume at any one session from becoming excessive.

Recommendations for Natural Bodybuilding Contest ...

Preparation for bodybuilding competition involves drastic reductions in body fat while maintaining muscle mass. This is typically achieved through a decreased caloric intake, intense strength training, and increased cardiovascular exercise. Competitors partake in numerous dietary and supplementation strategies to prepare for a contest.
