### The Cosmic View of Albert Einstein: Writings on Art ...

Albert Einstein, 1921 Albert Einstein's religious views have been widely studied and often misunderstood. Albert Einstein stated that he believed in the pantheistic God of Baruch Spinoza. He did not believe in a personal God who concerns himself with fates and actions of human beings, a view which he described as naïve.

### The cosmic view of Albert Einstein (Book, 2013) [WorldCat.org]

Einstein was a brilliant man, but he was clueless about God. I admire his pacifism and his humanitarianism. He said that moral teaching was more important than scientific theory. But believing that God is merely some unknowable cosmic force doesn't have any basis in either science or theology.

These essays date from the 1930s and 40s. In direct, everyday language the author develops a coherent view that transcends both the antiquated religion of fear and the modern religion of ethics. His concept of cosmic religion combines science and religion, with science forming the basis for a more enlightened religion.
