## **The Eyes Of Skin Architecture**

One of the first serious architectural  
theory books I have read, The Eyes of  
the Skin is an insightful analysis of  
architecture in relation to the five  
senses. As a philosophy enthusiast, I  
was pleasantly surprised by the frequent  
references to familiar names - Pallasmaa  
certainly expanded my view on both of  
these disciplines (and their intimate  
connections for that matter) with this  
work.

Architecture also gives a conceptual and material structure to societal institutions, as well as to the conditions of daily life. It concretises the cycle of the year, the course of the sun and the passing of the hours of the day.” — Juhani Pallasmaa, *The Eyes of the Skin: Architecture and the Senses*
