The Universe in the Rearview

Mirror: How Hidden Symmetries ...

About The Universe in the Rearview Mirror. "A great read.... Goldberg is an excellent guide."—Mario Livio, bestselling author of *The Golden Ratio*. Physicist Dave Goldberg speeds across space, time and everything in between showing that our elegant universe—from the Higgs boson to antimatter to the most massive group of galaxies—is shaped by hidden symmetries that have driven all our recent discoveries about the universe and all the ones to come.

The Universe in the Rearview Mirror by Dave Goldberg ...

They're not hardwired in; they just happen. But once they happen, it becomes very, very difficult to switch. Take a drive on the left-hand side of the road and see how that works out. But in the universe in the rearview mirror, everyone drives on the left. Like antimatter, the mirror universe is not so
